REALTORS® CONFIDENCE SURVEY

NATIONAL
ASSOCIATION OF
REALTORS®

REALTORS® are members of the National Association of REALTORS®.

First-time buyers remain higher than one year ago, but eased from last month.

The Market Outlook from the REALTORS® Confidence Index retreated for both buyers and sellers on a monthly basis.

- 19% of respondents expect a year-over-year increase in buyer traffic in the next three months, a decrease from 20% one month ago, and a gain from 17% one year ago.
- 20% of respondents expect a year-over-year increase in seller traffic in the next three months, a decrease from 22% one month ago and 23% one year ago.

With supply still limited relative to demand in some housing markets, 21% of homes sold above list price, this is flat from last year when it was 21% and down from 25% one month ago:

- Homes listed received an average of 2.2 offers, essentially unchanged from 2.2 last month and down slightly from 2.4 one year ago.
- 25% of buyers had all-cash sales, which was unchanged from 25% one month ago and down from 29% one year ago.
- Due to the use of technology, 5% of buyers purchased a home based only on a virtual tour, showing, or open house without physically seeing the home. This is essentially flat from 6% from one month ago and down 8% one year ago.

Contracts typically closed in 30 days, the same as last month and one year ago. But some faced delays or termination:

- 6% of contracts were terminated in the last three months, flat from 5% one month ago and 6% one year ago.
- 13% of contracts had delayed settlements in the past three months, flat from 14% last month, and from 12% one year ago.

- 3% of sellers sold to an iBuyer, up from less than 1% one month ago and 2% one year ago.
- 2% of sales were distressed, virtually unchanged from 1% one month and flat from 3% a year ago.

Contract activity shows a reduction in buyers waiving contingencies reversed course after a dip last month:

- 20% of buyers waived the inspection contingency, up from 17% one month ago and flat from 20% one year ago.
- 17% of buyers waived the appraisal contingency, down from 24% one month ago and from 23% one year ago.
